

Important Information Regarding On-Stage Activities

You may want to consider participating in the Little Folks Festival by providing an on-stage activity. We are looking for fun interactive activities that the children in attendance can participate in. This is an excellent way to promote your service. As an example, if you teach dance, the children can join you on stage to learn a few steps or to watch other children perform. If you teach music, you could bring a keyboard and sing or play for the children. Please be prepared to discuss your business/organization with the parents in attendance. On-stage performances will be limited to thirty minutes, which includes your time to setup and take down any equipment necessary. Keep your presentation lively and interactive. You may also want to consider setting up a display table to promote your service on the floor along with the other participants, when not on stage. Space is limited so actual demonstrations will be restricted to the stage. Also, all on-stage showcases will need to be limited to programs featuring young children, birth to age five. We encourage interactive activities that include participation from our visiting children. Stage performances are offered on a first come, first serve basis.

Please indicate your first, second and third preferred time slots on-stage by listing your name by the time and include a description of your activity. We cannot guarantee your preferred time slot:

All requests for on-stage performances/demonstrations are at the discretion of Stokes Partnership for Children. I understand that this is a commitment. I agree to keep this commitment. SPC will publicize this schedule and failure to show will disrupt the event. Children will be disappointed! I understand and agree to the terms stated herein:
