Panther Tickets (2) Silver Level

Based on Bank of America Stadium's seating chart, section 338 is part of the Club Level, which is the second tier of seating. Row 8 is located in the lower half of the section, offering excellent sightlines for the game.

Here is a breakdown of what that means for your experience:

Club Level access: With Club Level seats, you and your guests will have access to the stadium's furnished club lounges, which feature HDTVs, premium food and beverage options, and other amenities.

Good views: Being in a club section and in a low row provides a great vantage point of the entire field, which is considered one of the best views in the stadium.

Week 13 matchup: The Carolina Panthers' Week 13 home game in 2025 will be against the Los Angeles Rams on Sunday, November 30.

Panther's Game is Sunday, November 30th at 1pm
